

What are They?

Vox City Guides are a totally flexible, self-guided sightseeing tour package that enables customers to navigate and explore cities without depending on fixed schedules, tourist guides or groups. It includes a lot of great features downloaded directly onto your client's mobile device.

Clients will receive a pdf with their docs explaining how it works (see image below).

They will also need to download the free Vox City app from their App Store, then use the app to scan the QR code on the PDF (or enter the username and password provided on their documents) to access their free city guide. *Note: They can download the app and city contents at any time, but we recommend they do so before leaving home.*

The app features:

- Hundreds of points of interest in the city
- An offline digital map
- Self-guided walking tours
- Public transport itineraries
- Top spots for great photos
- Free wi-fi spots
- Multiple phones in the one party can download the same city guide – handy if any of the group want to do something different
- Once the app is downloaded, the guides can be used without an internet/wi-fi connection

Infinity is offering these to our clients for FREE when they book a package to Europe that contains either an airfare or a cruise. Don't forget to add them in every time you add an airfare to a package, and tell the agent they are getting it for free ... it makes YOU look good!

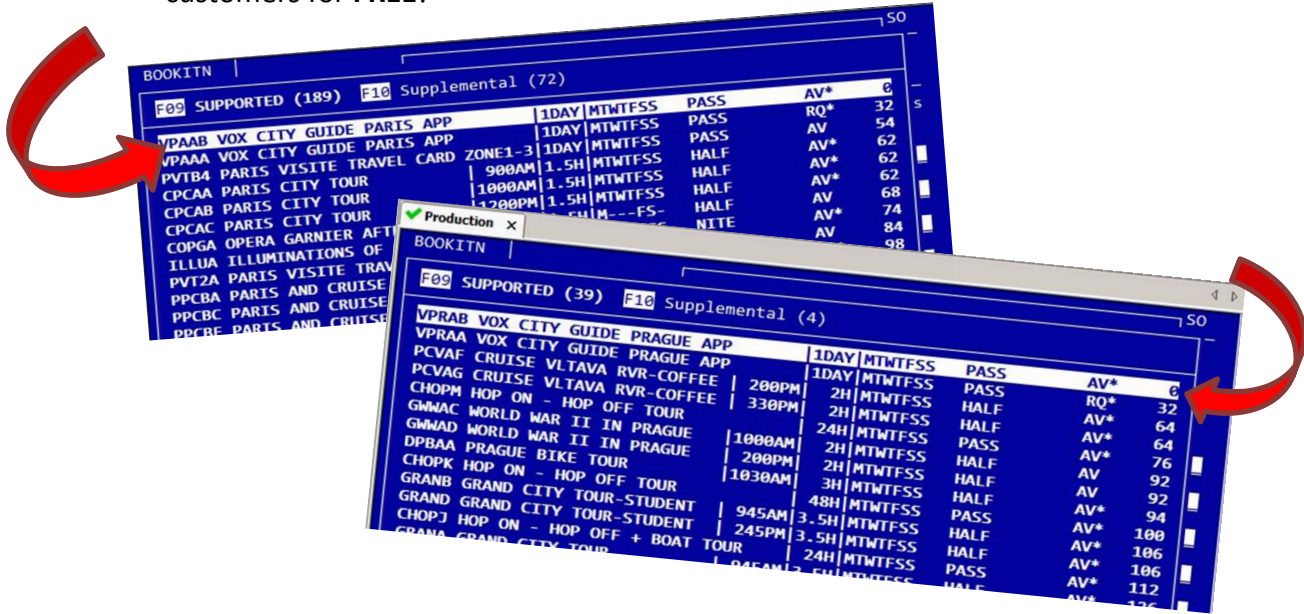

What Cities do we Offer?
